

***One Used Imperial CNC Hydraulic Pressbrake HCE 11031  
Capacity: 3100 mm x 110 Tonnes (CNC 3 Axis – Y1, Y2, and X)  
Serial Number: . Year Of Manufacture: 1995***

- Heavy duty machine construction from high quality steel
- Twin cylinder CNC synchronised hydraulic down-stroking
- **Cybele DNC 50** multi axis controller for Y1, Y2 levelling, depth control and auxiliary axes control
- Bend angle programming and correction, depth accuracy within 0.01 mm
- Linear scales mounted on independent side frames (deflection free)
- CNC X axis back gauge with recirculating ball screws and four flip type gauge fingers
- Programmable fast approach / working speed change over point
- Programmable open day light
- Programmable tonnage control
- Control station with dual foot pedal
- Low noise pump and hydraulic system
- Euro Style top tool holders
- Narrow table
- Set of top tools and bottom dies
- Full tank of hydraulic oil
- Operating manual
- Standard colour: charcoal & red
- Machine guarding:  
Vertical light curtains 300mm from top tool,  
mounted upon powder coated hinged side fences plus rear light guards

**Price**

**\$ 51,000.00 plus GST**
